

**Hurunui Weedbusters: Working Bee Saturday 23 November, 9.30am – 12.30pm  
Port Robinson Reserves, location tbc**

These coastal reserves south of Gore Bay have been transformed by extensive native revegetation undertaken by the Port Robinson Reserve Advisory Group. Since the early 1990s local volunteers have established many thousands of plants and also do trapping and weeding.

There are plenty of weeds to contend with including old man's beard and banana passionfruit. The target and location of our coming working bee is being finalised, and we'll provide the specifics soon.

**We hope you'll join us for a great outing to this beautiful part of Hurunui!**

**Details:**

Gloves and secateurs will be supplied. You're welcome to bring your own tools. Wear sturdy footwear as the site is sloped and rough in places. Bring weather/sun protection and water. Morning tea supplied. BYO lunch if you want to stay on for a picnic.

**Meet at Hurunui District Council, northern carpark, Amberley, at 8.30 am**, to go in the HDC van, **or at the site by 9.30 am** (directions on registration)
